

8/15/2018

To Whom It May Concern,

With substantial regret, we must inform you that the court in the Presidio Lawsuit has issued an injunction precluding ATC from making, using, selling, or offering to sell 550 capacitors in the United States after August 16. 2018.

ATC has exercised all avenues to settle this dispute directly with Presidio and through the courts at considerable expense. In the interest of continuity and assurance of supply for our customers, attempts to negotiate reasonable licensing terms with Presidio were made, but not successful.

Unfortunately, as we continue to contest the validity of the patent cited in the injunction, it is unclear when this matter will be finally resolved.

The injunction does not prohibit the sale of other ATC products. We look forward to working with you during this difficult time and we will work to ship you what you need to keep your operations going.

Regards,

Steve Rabe

ATC VP Sales
