

PRODUCT CHANGE NOTIFICATION

Product Category COPPER CONNECTORS **20220628-2**Product Group ENTERPRISE CONNECTIVITYISSUE DATE: 11-Jul-22IMPACTED REGIONS: NA EMEA LATAM APREASON FOR CHANGE: DISCONTINUATION OTHER**DESCRIPTION OF CHANGE: (Required)**

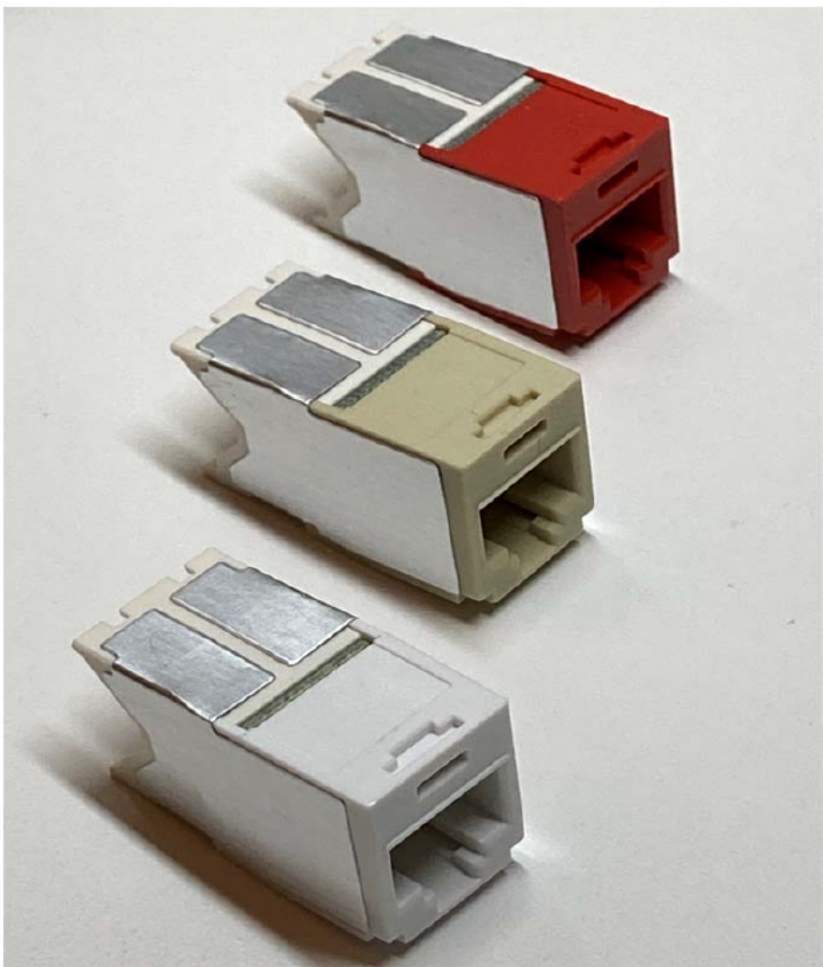

Panduit's Cat 6A UTP Jacks use an aluminum foil tape applied to the jack housing to achieve industry leading alien crosstalk performance. Panduit is making a permanent change to the color of the foil tape on Pan-Net Cat 6A UTP Jacks. The old foil tape was colored similar to the color of the housing. Due to global material shortages Panduit will be providing jacks, independent of housing color, with a silver colored foil tape. This change took place in Panduit's manufacturing facilities in Nov 2021 and will now be permanent. This change does not affect fit, form, function, or jack performance.

See images of the new silver foil tape to the right.

IMPACTED PART NUMBERS AND REPLACEMENT PART NUMBERS: (where applicable)
