

### The Leader In Fiberglass Poles Since 1956

Jameson introduced the first fiberglass lay-up sticks over 50 years ago to meet the needs of telecommunication linemen, quickly replacing wooden poles as the industry standard.

Today, the Jameson pole line has expanded to include a variety of models, configurations, tools and accessories to meet our customers' specific needs.

All Jameson poles are manufactured with a non-fiberglass surface veil to prevent fiber blooming

Aircraft grade aluminum ferrules with exterior leaf spring locking button provide a secure connection when attaching multiple poles or tool heads

### How To Choose The Right Pole For Your Job

- 1 Select pole model based on application (table below)
- 2 Select configuration based on application (page 2)

#### Pole Models

	<b>JE Series</b>	<b>FG Series</b>	<b>BLITE</b>	<b>LS Series</b>	<b>Double Locking Telescoping Pole</b>
Typical Application	Line Clearance & Aerial Construction	Professional Tree Care & Aerial Construction	Professional Tree Care The Ergonomic Choice for Prolonged Use	Landscapers & Homeowners	Landscapers & Homeowners
Key Features	Foam Core Protects Against Moisture And Debris	Highest Strength. Industry Standard For Over 50 Years. Most Versatile.	Highly Durable Enamel Coating Lightest Weight	Light Duty Landscaping	Telescopes To Save Space
Dielectric Testing	Individually Tested To 100 kV Per Foot For 5 Minutes	Batch Tested To 100 kV Per Foot For 5 Minutes	Batch Tested To 100 kV Per Foot For 5 Minutes	Not Tested	Not Tested
Wall Thickness	0.110"	0.125"	0.075"	0.100"	Standard
Color	High Visibility Safety Yellow	Jameson Yellow	High Gloss Blue	Green	Jameson Yellow

Jameson Pole Models Can Be Used Together In A Variety Of Combinations - All Have The Same Ferrules

- 1 Choose your tool head (pruner, pole saw or accessory)
- 2 Attach tool head to pole's female ferrule with adapter
- 3 For additional length, attach extension pole(s)

*For highest performance and safety, Jameson recommends using a Base Pole when using one pole or starting with a Base Pole when working with multiple poles.*

PRUNER

ADAPTER

EXTENSION POLE

BASE POLE

**EXTENSION POLE**  
With male & female ferrules for additional length

**BASE POLE**  
With rubber end cap and female ferrule provides solid foundation

**SAW HEAD POLE**  
With male ferrule and permanently mounted saw head for attaching saw blade

### POLE CONFIGURATIONS

**Base Pole - Jameson recommends starting with Base Pole**

Extension Pole provides additional length, extending workable height.

Saw Head Pole is for use with Saw Blade.

### ADAPTER & FERRULE SYSTEM

Makes it easy to change from pruner head to pole saw head or pole lengths of 4' to 12'. An exterior leaf spring locking button on ferrule offers a strong connection, whether attaching poles or tool heads.

This versatility saves time and money in the field.

### SAW HEAD POLE SET UP

Use saw blade with Saw Head Pole or use Pole Saw Head (page 11) with Extension Pole.

**Jameson recommends using Saw Head Poles with Base Poles.**
