1B/1K/1T/1W.801 and 803 Coaxial Contact Assembly Tool

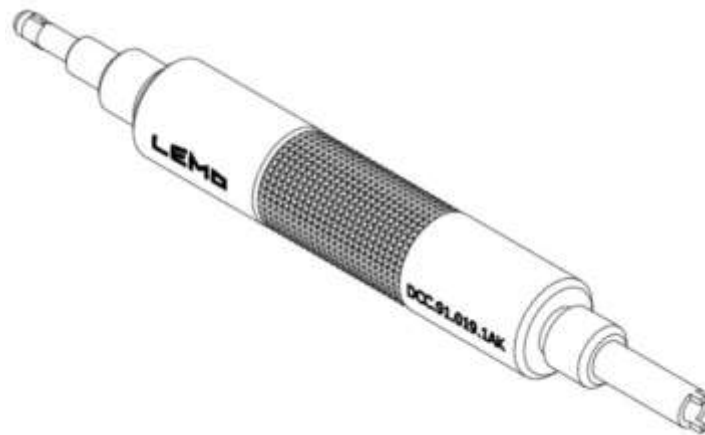

Summary:

The design of the coaxial contact assembly tool used in the 1B,1K, 1T and 1W Series (with 801 and 803 type inserts) has been updated.

Details:

The assembly tool for the type F male and female coaxial contact has changed. It has a new outer shape and is black chrome-plated Steel rather than the blue anodized Aluminum.

The tool part number has changed from DCC.91.019.1LA to **DCC.91.019.1AK**.

Timing of change:

The new version tool is available now!
