**Packaging Change Notification: 3M™ Thermal Bonding Film AF111**

Dear Valued 3M Customer,

This letter is to inform our customers of a packaging improvement to 3M™ Thermal Bonding Film AF111 manufactured out of the 3M Springfield, MO factory. Attached is a PowerPoint describing the packaging improvements.

3M wants to assure its customers that the manufacturing process, formulation, and release requirements have not changed. We will still guarantee the shelf life of 12 months. 3M strives for the highest quality for its customers and is always looking for continual improvement opportunities. We believe this change will benefit our customers without effecting the overall quality of this product.

We hope this letter provides you with the assurance that 3M is committed to quality and customer satisfaction. Thank you very much for your continued support to 3M and its products.

Best regards,

Tom Richardson  
Business Manager  
3M Electronics Materials Solutions Division
