

## Part Change Notice

9/18/2020

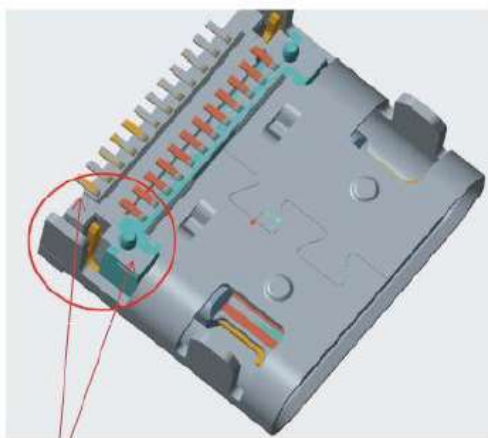

**Company:** KYCON, Inc.  
305 Digital Dr.  
Morgan Hill, CA 95037  
USA  
408-494-0330

**Re: KUSBX-SMT-CS2-B30TR**

Please note that changes were made to the above part number in an effort to increase stability and quality.

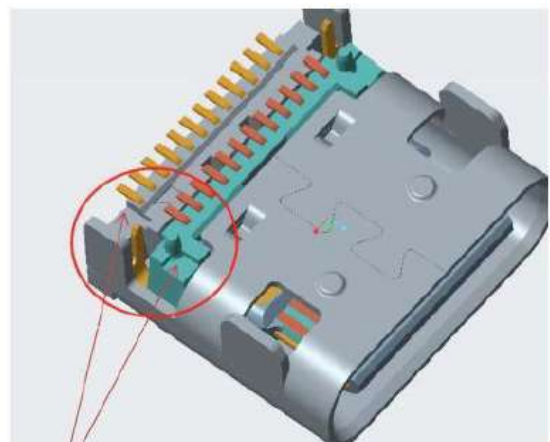

There is no change to form, fit or function. However, there are some slight differences.

See the pictures below for more details.

Old

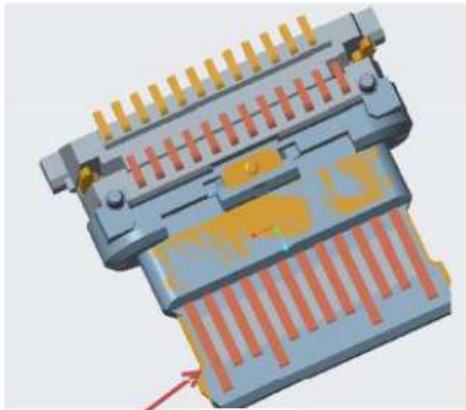

No undercut

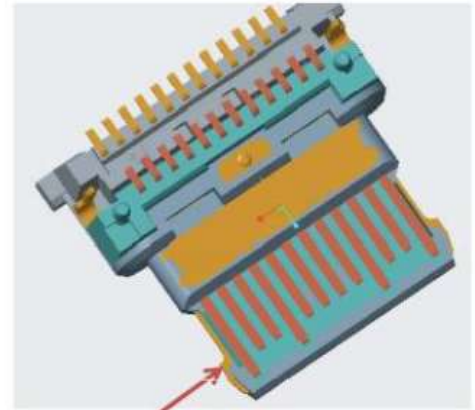

New

Undercut added

Undercut was added to help molding process and prevent defects.

Old  
Grounding plate thickness 0.20mm

New  
Grounding plate thickness 0.15mm

Grounding plate thickness was modified to help increase the thickness of the molding material.

Please contact your sales representative with any questions.

A handwritten signature in black ink that reads "Jill Scarnecchia".
