

Product Change Notification

TE Connectivity

Product Change Notification: P-21-021159

PCN Date: 05-JUL-21

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
REC CONN CVR,4POS,MCON 9.5

Description of Changes
Force Majeure material substitution - We hereby inform you about a running raw material change for mentioned part numbers, which are under design responsibility of TE Connectivity. This action is mandatory to ensure the deliveries towards our customers and avoid shortages.

Reason for Changes:
Product improvement. Due to Force Majeure of resin suppliers, TE Connectivity has to switch selected components to use a similar material with the same characteristics as the previous material. The change to alternative material is not limited in time and depends on the resin supply availability. The change back to previous material will happen depending upon resin supply availability. The traceability of the parts is given by the date clock on individual components, the material designation code will stay the same, due to urgency. Due to time constraints, TE Connectivity will not perform full testing. The material is of the same characteristics and to the best of TE's knowledge no negative impact on performance is foreseeable. TE does not assume any damages or claims related to the change of material.

Estimated Dates:	
Last Order Date (Obsolete Parts Only):	First Date To Ship (Changed Parts Only):
	09-JUL-2021
Last Ship Date (Obsolete Parts Only):	Last Date for Mixed Shipments: (Changed Parts Only):
	No Mixed Shipments
