

PELTOR™
Protection & Communication

Introducing the 3M™ PELTOR™ LiteCom FRS Headset

The 3M™ PELTOR™ LiteCom FRS Headset is a hearing protector with built-in analog two-way communication radio, programmed to operate on the 22 FRS channels. The noise-cancelling, voice operated speech microphone helps enable clear, hands-free communication in noisy environments.

3M™ PELTOR™ LiteCom FRS Headset

Designed for use in construction, manufacturing, processing, equipment maintenance, crane operations, plant tours, and many other applications in noisy environments, the 3M PELTOR LiteCom FRS Headset assists your workgroup through better communications while helping provide hearing protection when workers are exposed to hazardous noise.

Features:

- ▶ Protective communication solution for hands-free, clear communication in noisy environments
- ▶ Helps provide hearing protection when exposed to hazardous noise
- ▶ Analog two-way communication radio with 22 pre-programmed FRS channels
- ▶ Noise-cancelling microphone for clear speech transmission in noisy environments
- ▶ Push-to-Talk (PTT) or hands-free Voice Operated (VOX) transmit options
- ▶ Operates on AA batteries or rechargeable NiMH battery pack
- ▶ Voice guided headset menu for easy operation
- ▶ Built tough for the working professional
- ▶ Comfortable for all day wearability

*U.S. EPA specifies the NRR as the measure of hearing protector noise reduction. However, 3M makes no warranties as to the suitability of the NRR for this purpose. 3M strongly recommends personal fit testing of hearing protectors. Research suggests that users may receive less noise reduction than indicated by the attenuation label value(s) on the packaging due to variation in fit, fitting skill, and motivation of the user. Refer to applicable regulations for guidance on how to adjust attenuation label values. It is recommended that the NRR be reduced by 50% to better estimate typical workplace protection.
