

Dear Valued Customer:

This letter is to inform you that we are implementing a change to the products described below. Please review this letter to ensure that your products and/or processes will not be affected by the proposed change and email your acceptance and/or need for any other documentation from us to accept this change by July 1st 2017. Thank you for your help and support.

Inspired LED Part Numbers: 12V-MB-WW-12M, 12V-MB-WW-12M, 12V-MB-PW-12M, 12V-MB-PW-12M, 12V-MB-CW-12M, 12V-MB-CW-12M

Reason: In an effort to provide the best quality products Inspired LED is upgrading the about Flexible Strips to be standard at 90 CRI. Because of this new standard, but points on the Mega Bright 120 LED/M Flexible Strips will now be in the same format of our other 12V Flexible Strip Products with cut points every three diodes. These new cut points will also allow for greater customization for Digi-Key customers.

Drawing/Datasheet Rev.: As of 7/5/2017 this data sheet should be the ONLY Data sheet for all above listed products, <http://www.inspiredled.com/pdf/12VMBFiexSpec2.pdf>

Change Description: Inspired LED is willing to replace any stock items that only have cut points at every 6 diodes, in exchange for new reels with cut points every three diodes at no charge. Please contact Audi Gasparini at orders@inspiredled.com to arrange an RMA for exchange of those in-stock items.
