

Product Discontinuation

2009-Sep-03

OS-PD-2009-017

Last order:	07. Dez 2009
Last delivery:	07. Mrz 2010

Reason: In order to adapt our product portfolio to match the price- and efficiency requirements in the market, we are phasing out the visible OSTAR Lighting products. Infrared products (SFH4750, SFH4751) are not affected.

Please consider clusters of OSOLON SSL or OSTAR SMT mounted on a PCB or other existing products for short term replacement. Don't hesitate to contact your sales representative/our application teams in case you need support in redesigning your application.

Please direct your inquiry to your local Sales office.
Proposed replacement-LEDs available end of september 09.
