

Date: February 27, 2017

To: Bussmann series connector and terminal block customers

Subject: End-of-life notification for Bussmann series 15288 connector products

Dear valued customer:

The Bussmann series 15288 connector family of DIN-Rail depluggable blocks has reached its end-of-life and will be discontinued, with last buy orders accepted through March 31, 2017. Any existing inventory is saleable and should not be returned. The specific discontinued catalog numbers are listed in the table below.

Catalog #	UPC
15288	051712348614
15288-R	051712348645
15288-RS	051712348652
15288-S	051712239059
15288-SS	051712348669
15288-ST	051712200585
15288-STSS	051712348676

There are no direct replacements for the 65 amp rated 15288 products. However, Eaton offers several different connector and terminal block products that may serve as a replacement depending on the application. To review possible substitutions, please see the connectors section of the Bussmann series full line product catalog (publication no. 1007) or visit the [connector product page](#) on the Bussmann Division website. For further assistance, contact Fusetech@Eaton.com, or your Bussmann series product sales representative, for assistance in selecting an appropriate connector product for your application.

Kind regards,

Darren McDowell
Product Manager
