Product:	Metral Header Straight HM1W-series	Part Numbers Concerned:	See list attached
Product Manager:	F. Lahoreau	Issue Date:	Oct. 14, 2008
		Page(s):	1/1
Distribution:	Active and Contract Customers		

Subject:

Conversion of HM1W part numbers to 5 digit numbers, withdrawal of HM1W-monoblock part numbers and clean up leading to full withdrawal of HM1W-series except *400*-codes.

Nature of Change:

More than 7 years ago, FCI consolidated its Metral Straight Header portfolio and recommended standardization on 5-digit part number system. Products HM1W and XXXXX-XXX are form-fit-function identical. Due to the wide spread in documentation at our customers we did grandfather the HM1W-part number system.

Over the years conversion has taken place to the recommended 5 digit part number system and it is confusing and no longer cost effective to continue both systems.

Next to IEC-standardized modules, the use of HM1W-monoblock designs was popular in mid nineties. Exploring the benefits of standard modules, the appreciation and design-in of mono block reduced. With the reduction of volume in these customer specials and lack of any new development, we will adjust our portfolio accordingly.

Meeting requirements of the Mil/ Aero market, we will still continue with strategic HM1W-partnumbers containing the special identification code "400".

Implementation Date:

Last order date: Dec 31, 2008

Last shipment date: Feb 27, 2009.

Affected Part Numbers:

See list attached

Alternative Products:

Active HM1W part numbers addressing standard modules are crossed to XXXXX-XXX system. Monoblocks can be built using standard signal modules however adjustments might be needed due to low volume demand, customized pin assignments and application requirements. We will be most happy to advice on request.

Action Required:

Please inform related OEMs and their partners and highlight the option for a last-time-buy before year end.
