April 2020

PCN (Product Change Notification) reference: **2020/07**

Subject: **Change to dielectric disc of JZ030, JZ030HV, JR030, JR030HV**

Dear Customer,

This notification letter is to advise you of a change in the dielectric disc used in the production of the identified Knowles Voltronics half-turn trimmer products.

The new disc utilises existing ceramic materials currently used in the JZ100, JZ150, JZ200, JR100, JR150, JR200 and HV versions. All catalogue specifications are met with no change to form, fit and function.

Should samples be required these are available on a limited basis for JZ030 and JR030 part numbers, please contact myself in this instance. Samples will be provided on cut tape.

If you require further information, please contact the Trimmers and Non-Magnetic Product Manager, Matt Ellis email [matt.ellis@knowles.com](mailto:matt.ellis@knowles.com).

Yours sincerely,

Matt Ellis  
Product Manager, Trimmers and Non-Magnetic Products

## **PCN Details**

PCN reference: 2020/07

PCN Issue Date: 22/April/2020

Product: Voltronics Half Turn Capacitors JZ030, JZ030HV, JR030, JR030HV

Change Description: Change to ceramic dielectric disc

Reasons for Change: Change of supplier

Changes to Form,  
Fit or Function: No change to component form, fit or function.

Changes to Quality  
or Reliability: None.

Changes to Voltronics  
Part Numbers: None.

Proposed First Ship  
Date: All open and forward orders.

Qualification  
Results: Available on request

Are Samples  
Available? Limited samples available on request
