The TDR 3WI series is a family of compact 3 W DC/DC-converters with 4:1 input voltage ranges and tightly regulated output voltages even under no load conditions. The product is available in THD-package. They work with high efficiency over the full load range and come with a remote On/Off input. The usability in temperature ranges of up to $+85^{\circ}\text{C}$, continuous short circuit protection and excellent immunity against environmental influences make these converters very reliable. A TDR 3WI converter is the ideal solution for space critical high end applications in communication equipment, instrumentation and industrial electronics.
