

Product Change Notification

PCN-IFC-449-2017

Business Unit	Product Line Code	Type of Change	Action	Date of Issue
IFC - Industrial Field Connectivity	BF7	Product Change Notification	Notify Distributors and Field	3/15/2017

The following Phoenix Contact products have been modified. Existing specifications will be met or exceeded. Please review and acknowledge this document and inform your personnel as needed.

Description for Product Change Notification

The B series push-in (PT) inserts will be upgraded via a change in the insulating material – from Polyamide(PA) to Polycarbonate (PC).

An advantage of the upgrade to PC material is that it is approved for Railway applications and is rated to HL3 for R22, R23 and R24.

Small, visible modifications to the geometry of the insert have been made only to optimize the flow of plastic in the molding process, and to improve our integrated quality control.

The new inserts are fully intermateable and interchangeable with the old inserts and with competitor inserts.

Stock Status

Can existing stock still be used?	Yes
Is mixture of stock acceptable?	No

Transaction Dates

Date modification goes into effect from Germany:	12/14/2016
Expected first shipment (from Phoenix Contact) of the modified products(s):	6/1/2017
